

# Mental health referrals made fast and easy.

To better connect our members with in-network mental health care, BCBSKS has partnered with MiResource. Access MiResource directly at [bcbsks.miresource.com](https://bcbsks.miresource.com) to find up-to-date, in-network mental health care for your patients.

## No knowledge or experience needed.

MiResource helps guide patients through the process of identifying the right mental health care for their unique needs whether it's their first time seeking care or they are reestablishing treatment.

The image displays two overlapping screenshots of the MiResource website interface. The background screenshot shows a search results page for "64 care options near 94016". It includes filters for Specialty, Payment, Availability, Identity Preferences, and Accessibility. Three therapist profiles are visible: Jaydon Carter, Understanding Self and Others Group, and Michelle Wu. The foreground screenshot shows a detailed profile for Maria Velazquez, a Licensed Marriage and Family Therapist (LMFT). The profile includes her photo, pronouns (she, her, hers), a bio, and a table of practice hours (PST).
