

SEHP Members: What to do if your local hospital or provider leaves the Blue Cross and Blue Shield of Kansas network

If your hospital or provider decides to leave the Blue Cross and Blue Shield of Kansas (BCBSKS) network, you can still receive in-network care through the end of the calendar year. At the start of the next calendar year, your regular care and services will be considered out-of-network. The billing and payment process will be different and may cost more. NOTE: This does not apply to Medicare or any BCBSKS Medicare products, or any emergency services.
